**Sub component 1.1: Strengthening institutions to improve learning Outcomes
and Employability of Graduates (www.npiu.nic.in)**

**OBJECTIVE: To strengthen selected Engineering institutions to improve the
competencies of undergraduates.**

TEQIP AT GEC IDUKKI

AIM of the Project:

The proposed development plan for Govt. Engineering College Idukki, under TEQIP Phase II, aims in bringing radical changes in the existing teaching learning atmosphere, for improving the quality and employability of students within a time frame starting from the year 2011 and ending by the year 2015.

The proposed plan for the institution development aims in bringing radical changes in the existing teaching-learning atmosphere, for improving the quality and employability of students. The proposal will open up avenues for the active involvement of students in the learning process. The finishing schools and remedial classes are intended to improve the technical as well as managerial competence of students by enhancing their soft skills. The enhancements are brought out by updated learning resources and their increased access, improved laboratory facilities, modern digital class rooms, improved hostel facilities with homely atmosphere and extensive faculty and staff training. The action plan will help in improving all-round excellence of students and to assist them in formulating their careers. The proposed action plan will also ensure that all students and faculty have equal opportunity to avail the benefits of the project with substantial improvement in the performance of academically weak students.

In order to achieve the general and specific objectives the institution has identified key activities and an action plan has been chalked out with a budget estimate of Rs. 1179.77 lakhs. The fund requirement over the project period is given in Table A.

Table A. Fund Required Over the Project Period

Financial Year	Project Life Allocation	2010-11	2011-12	2012-13	2013-14	2014-15
Fund required (in lakhs)	1179.77	44.6	364.52	356.57	331.37	82.71

The project spans from 2010 to 2015 and major part of the proposed amount is scheduled to be spent during the period from 2011 to 2013 by establishing new laboratories, strengthening existing laboratories and improving other academic infrastructure.
